Hudson Observer [illegible]51 Job Print

8/29/23

FOREWORD

This volume provides a complete list of all taxable property in Hoboken and the amounts levied against each parcel. In these days of high taxes, however, tax payers are interested not alone in the amount of taxes they have to pay. They want to know also whether taxes are high elsewhere, *WHY* taxes are high and whether there is a prospect of lower taxes in the future.

As an aid to those individuals who are interested in finding the answers to these questions, a statistical appendix has been added to this volume. The following tables are presented:

1. Hoboken Tax Rate, since 1916.
2. Apportionment of Hoboken Tax Rates, since 1916.
3. Assessed Valuation of Taxable Property in Hoboken, since 1916.
4. Tax Rates Elsewhere in Hudson County, since 1920.
5. Municipal Budget of the City of Hoboken, 1922 and 1923.
6. Table showing all appropriations for local purposes, apportionment for County and State purposes, revenues from miscellaneous sources, total revenue derived from general property tax.
7. Comparative Debt Statements, City of Hoboken, 1917 to 1922, inclusive.

A careful study of these tables and the past trends which they reveal will give tax payers at least a basis of fact on which to make a tentative forecast of the future.

OUR FACILITIES—Adequate and Complete.

OUR AIM—To serve the Individual as well as the Business Man of Hoboken, and to treat every Depositor, large or small, with the same Courtesy and Consideration.

Money To Loan On Bond and Mortgage

APPENDIX

The tables herein contained have been compiled by the Hoboken Chamber of Commerce from various sources: the annual abstract of ratables of Hudson County, official copies of the annual budgets of Hoboken, and newspaper reports. In some instances there are palpable evidences of inaccuracies in certain of the official reports; in others there are minor discrepances between official reports from different sources bearing on the same subjects. Wherever possible, without recourse to an actual audit, these inaccuracies or discrepancies have been adjusted in the tables.

Tables 1 to 5 are self explanatory. Tables 6 and 7 are somewhat more complicated and the following notes are given to make their meaning apparent:

TABLE 6

Lines 1 to 11 inclusive in this table are based on the city budgets for the years indicated. For the sake of brevity and of ease in comparison with the detailed budget appropriations published in Table 5, expenditures are grouped under the heads of the city's five administrative departments. Reference to the preceding table will indicate the municipal activities included under each general head for the seven fiscal years reported.

Lines 12 to 14 inclusive are based on the budgets of the school board, as certified to the municipal government. In this connection, it is necessary to point out that the school fiscal year does not correspond with the municipal fiscal year as indicated at the top of each column. The official fiscal school year is from July 1st to June 30th. In 1919, however, the amounts appropriated for the schools covered only the period from July 1st to December 31st, 1919. Since that time, the city has regarded the official school fiscal year as coinciding with the municipal fiscal year.

Line 15 is a mandatory item which makes its appearance only in the tax ordinance by means of which the total amount to be raised by taxation, after deducting all revenues from other sources, is certified to the county tax board.

(Explanation—Line 7 is the sum of lines 1 to 6.

Line 10 is the sum of lines 8 and 9.

Line 11 is the difference between lines 7 and 10.

Line 15 is the subtraction of lines 13 and 14 from 12.

Line 17 is the sum of lines 11, 15 and 16, and is certified to the county board of taxes.)

Lines 18 to 24 inclusive are derived from the county abstract of ratables, and represent (18) the city's half of taxes levied on bank stock in lieu of a tax on the personal property of banks, which is deducted from the sums in line 17 in order to arrive at the amounts (19) to be levied on general property for local purposes; lines 20 to 24, represent the apportioned shares of the various state and county taxes which are to be levied on general property within the City of Hoboken.

Line 25 is the sum of all the general property taxes levied in Hoboken.

For the sake of greater clarity, major totals are printed in black face type; deductions made in arriving at the totals are printed in italics.

TABLE 7

This table presents in detail the debt condition of the City of Hoboken as of December 31st in the years 1917 to 1922 inclusive, as set forth in the annual debt statements filed in compliance with the Pierson Bond Act.

The controlling factors in establishing the percentage of net debt are:

1. The sum of all the outstanding indebtedness of the city for general purposes and for public utilities, exclusive of the notes issued in anticipation of the current year's taxes, plus the outstanding net debt for schools after deducting the sinking funds applicable thereto.

2. The sum of the permitted deductions from the gross debt above, including amounts on hand in the sinking fund applicable to general bonds, all bonds issued for self supporting public utilities and for school purposes up to three per cent. each of the average assessed valuations of real estate (including second class railway property) for the three years next preceding; special assessments levied or to be levied for public improvements, and certain other items.

3. The difference between the gross outstanding debt and the legal deductions.

4. The average assessed valuation of real property including second class railway property (but in no case including personal property) for the three years next preceding the date for which the statement is made.

The relation which (3) bears to (4) expressed in terms of percentage, represents the percentage of net debt. The legal limit for this percentage extablished by law is seven per cent. Because of the form in which the statement is made, this seven per cent. limit will apply normally only to the general debt of the city; i. e. the debt for streets, sewers, public buildings (except schools) etc. The city may have an additional debt up to three per cent. for water supply, electric lights, docks and other self supporting public utilities; and a further debt up to three per cent. for school buildings, etc., without affecting the general debt. In case, however, that the debt under either of these headings exceeds the authorized three per cent., the excess over the three per cent, becomes a charge against the general debt limit.

TABLE NO. 1—TAX RATES PER $1,000 SINCE 1916
